SUMMARY

As a hardworking, logical, and analytical student currently pursuing a degree at Aston University, I bring a strong academic foundation and have a few months of practical experience as a Kitchen Assistant. Eager to expand my horizons, I am actively seeking a part-time job that would not only allow me to gain valuable international work experience but also enable me to support myself financially.

EDUCATION

Master of Data Analytics, Aston University

Expected 2025

Bachelor of Technology, Computer Science and Engineering, Brainware University

2019 - 2023

SKILLS

Technical Skills

Programming, MS Office, Video Editing, Database Management

Soft Skills

Leadership, Time-management, Adaptability, Customer-service, Problem-solving

Programming Languages

Python, C, C++, Java

EXPERIENCE

Kitchen-Assistant

July 2023 - Dec 2023

Mix Plates, Guwahati

Assam, India

Worked collaboratively with team members in the initial stages of a kitchen startup, contributing to its growth. Responsibilities included:

- Assisted in menu planning, ingredient sourcing, and vendor negotiations to ensure cost-effective operations.
- Managed inventory and implemented efficient stock control systems to minimize waste and optimize supplies.
- Worked closely with chefs to execute food preparation and maintain high-quality standards.
- Provided excellent customer service, addressing inquiries, and ensuring a positive dining experience.

PROJECTS

Employee Management System. Built a program to manage employees in python using a dataset in CSV format.

Serverless Fitness Web Application. Built a serverless web application on Fitness using Amazon's AWS as my under graduation project.
